METAL ON-DEMAND!

At Metal Roof Supply, we don't just sell metal - we build roofing systems that contractors can depend on. From precision-formed panels to matching trim and accessories, our products are designed to work together and install cleanly. By combining quality materials, reliable production, and responsive service, we aim to be the manufacturing partner you trust on every job.

STEEL PRODUCTS FOR THE METAL ROOFING AND METAL BUILDING INDUSTRY

> Final color selection should be made from actual color chips.

> For themostcurrent information, visit metalroofsupply.com

> A 40-year limited paint warranty is available for all colors upon written request. Please inquire. (outside the continental United States, please inquire).

> Solar Reflectivity (SR): Solar reflectivity or reflectance is the measure of a material's ability to reflect solar energy or sunlight from its surface. SR values are numbered 0 to 1.0. A value of 0 indicates that the surface absorbs all solar energy and a value of 1.0 indicates total reflectance.

> Solar Reflectance Index (SRI): The SRI is used to determine compliance with LEED requirements and is calculated according to ASTM E 1980 using values for reflectance and emissivity. To meet LEED requirements, a roofing material must have an SRI of 29 or greater for steep slope roofing and an SRI value of 78 or higher for low slope roofing. For more information, visit usgbc.org.

NOTES ON AVAILABILITY

- Metal products, finishes, colors, and sizes available are subject to change without notice.
- Contact a Metal Roof Supply representative for current pricing and availability.
- Color chips shown on reverse side represent the actual color as closely as possible. To ensure color is accurate, request a metal sample before placing your order.
- Metal and finish warranty information available upon request.
- Custom colors and finishes available. Minimum charges and quantities may apply.
- Oil canning is an inherent characteristic of light-gauge, cold-formed metal products does not affect the integrity of metal panels, and is not a cause for rejection.
